Jesse L. Blades

Non Veterinary Related Experience:

Paul Mueller Company, Incorporated

Springfield, MO
11/97 – 01/05

Head Assembly Department Foreman and Master Craftsman welder:

- Moderated effective communication with labor crews and management officials.
- Supervised and directed the fabrication of stainless steel vessels including pharmaceutical, juice, beer, wine, candy, and pulverizing vessels.
- Fabricated and assembled stainless steel vessels, repaired defects found using radiographs/ultrasound technology

Research Experience:

University of Missouri Veterinary Research Scholars Program

Columbia, MO
07/06 – 08/06

- Determining the relevance of radius lengths used when lunging horses to accurately diagnose lameness. This is important to standardize lameness evaluation techniques and was included in an objective lameness evaluation program {Lameness Locator by Equinosis} being developed at the University of Missouri, Dr. Keegan, and Dr. Wilson.

Activities and Memberships:

American Association of Bovine Practitioners

09/06 – Present

- Vice President - Student Chapter

09/07 – 09/08

- Selected speakers for and marketed after class seminars for students on medical, animal welfare, and business management topics related to bovine medicine.
- Organized educational wet labs for member's skill enhancement including rectal palpation and ultrasound of live cattle, and gravid uterus lab sessions.

American Veterinary Medical Association

09/06 – Present

American Association of Equine Practitioners
